

## **HALAL SCOPE & POLICY**

### **Halal Scope**

An impartial monitoring and traceability structure is established to inspect products, additives, preparation and processing methods, cleaning, hygiene, sanitation, and health conditions in accordance with strict safety requirements.

### **Halal Policy**

In the sector in which we operate, we aim to meet our customers' needs and expectations in the fastest and best possible way by:

- Following modern technological developments,
- Prioritizing communication and training to enhance the knowledge and skills of our employees,
- Ensuring hygienic conditions at every stage of production,
- Providing information about products to the public, consumers, and suppliers and/or requesting such information,
- Offering high-quality and hygienic products,

In this regard, we commit to fully complying with Islamic rules, legal regulations, and the requirements of the HALAL Certification standards, as well as to continuously improving the effectiveness of the Halal Management System we have established in line with these principles.

Chairman of the Board
